## Mallow wins third place in public architecture awards

MALLOW'S sustainable architecture has scored the town third place in the Royal Institute of Architects in Ireland's (RIAI) public choice awards.

Mallow TD, Seán Sherlock, said: "This is a great success story for Mallow and one that will boost the profile of the town, I have no doubt. I have met with the architect, Ms Vallone, a number of times and have seen, first hand, her passion for sustainable architecture for the town of Mallow," he said.

"I want to pay tribute to all the stakeholders involved in this announcement, especially the team in the Mallow Development Partnership. To secure third place out of 14,000 is a significant achievement and one that should not go unnoticed."

Seán Sherlock TD: Welcome for award.
