

The Complete Design Package at Kenneally Murphy & Associates

IMAGINING your dream home or considering a commercial venture but don't know where to start? Kenneally Murphy & Associates is your solution.

Located on Abbeyfeale's Main Street, the skilled, experienced team at this Architectural & Consulting Engineering firm will guide you through your entire project, from inception to completion.

Kenneally Murphy & Associates is a multi-disciplinary office, which is a major advantage to you, the Client. All Architectural & Engineering aspects of your project are combined in order to provide an innovative, energy-efficient, cost-effective building.

Kenneally Murphy & Associates employs a dynamic team of architects and engineers and has been involved in a wide range of projects from the modest extension to a multi-million Primary Care Centre. This office has the benefit of providing the full in-house service to our client - Architectural, Engineering, Environmental and Energy.

Kenneally Murphy & Associates offers invaluable experience in architecture and planning for residential, private dwellings and commercial projects. "The primary objective of our work is in the belief of producing buildings that combine simplicity, clarity and efficiency says Kevin

Kenneally, Director of Kenneally Murphy & Associates.

"Our approach is to create environments that combine amenity with maximum flexibility for current and future users.

"Architecture for us is about providing original, clear and practical solutions that benefit the inhabitants as well as the wider community,"

The team believes in having a good understanding and working relationship with the client, keeping the client involved in the design process until the final design is achieved and ensuring that the client is completely satisfied.

Some of our current projects include:

€1M+ Autism Spectrum Disorder extension to Presentation Primary Castleisland

Classroom, Resource room & staff room extension to Kilflynn National School

2 no. Primary Care Centres in both Kerry & Limerick

17M high 3 bay state of the art logistical warehouse unit, Newcastle West Pharmacy, Kerry

We also are currently working on a large number of one off houses and extensions along with Retail, Offices & GAA facilities.
